home appliances range

People buy design. Think of Sony, Philips, Alessi, Apple, Bang & Olufsen... and you'll already have a picture in your mind of beautiful design, well made.

The famous Husky Personal Drinks Refrigerator is already a leader in its field, and we continue to raise the bar: options include totally screen-printed graphics for superior brand exposure, internal lighting, locks, special glass profiles... and there are more developments on the way.

We've developed exclusive designs for global brands such as Stella Artois, Coca-Cola, Harley-Davidson, Guinness, and Budweiser. Want to join the list? Husky can help develop a signature Personal Refrigerator for your brand, too.

We've carried our core design values into traditional kitchen refrigeration too. The clean, sharp lines of the Husky domestic refrigerators and freezers are enjoyed in thousands of homes where value is as important as high quality.

There's no better choice for the home.

...innovation and value

personal drinks refrigerators

Consumers can't get enough of big brands, and we put their favourite icons right up front.

Remember, Husky Personal Drinks Refrigerators are **true refrigerators**; real compressor-powered fridges which meets legal standards for the safe storage of food and drink. They're also the coolest, best looking chillers around with stylish glass doors and optional internal lighting.

Pictured below are just a small selection of the global brands who choose Husky. Plain unbranded units are also available.

TRUE COMPRESSOR-DRIVEN PERFORMANCE

features

- Temperature control

HUSKY wine coolers

The Husky wine range is perfect for wine lovers.

The Personal Wine Refrigerator model (below left) includes custom-designed baskets to securely hold four bottles, with more on its flat top shelf.

Other models offer a wide range of capacities and options, including racking in matt black powder coat or bright chrome, and door trim in attractive real wood or chrome effect. There's even a dual-zone model for the most flexible choice in storage.

features

- Digital or manual temperature control, dependent on model
- Double-layer smoked glass door
- Wine rack storage
- Adjustable Feet

HUSKY sauna

Now you can enjoy the ‘spa break’ luxury of a top-quality Husky sauna at home. It’s an investment which can add value to your home whilst you enjoy a health-enhancing sanctuary in which to relax with friends, family... or simply pamper yourself.

Unlike conventional saunas, both Husky models use “far infra-red” heating elements. This means a much shorter warm-up time and lower running costs. There are health benefits too, as you experience an increased flow of sweat and toxins without the sometimes oppressive heat of standard saunas.

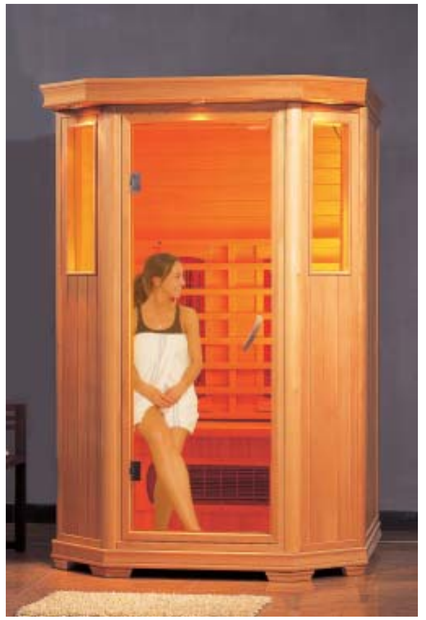
The lower 32-48°C (90-118°F) heat warms the body from within, so you can stay longer and enjoy even greater benefits and relaxation: it’s an enervating difference which sauna lovers will find refreshing, and even first timers will enjoy.

Conventional saunas are usually made from pine, but for superior protection from heat, moisture and mould, Husky saunas are crafted from the Western Hemlock Fir Tsuga Heterophylla, native to the Pacific coast of North America, Russia and China. Trees grow quickly and are cultivated as a crop, and forests are replenished as areas are cleared.

The radiant infra-red heat warms three times as deeply as conventional heat, helping skin tone regain its youthful glow, and even help break down fat stored as cellulite. Because you can stay in your sauna longer, as you relax more calories are burnt off and your metabolic rate is increased.

Both Husky saunas are designed to be built easily in the home by anyone with a basic experience of assembling flat pack home furniture. All panels are pre-cut and glass units are ready assembled. Joints are made using familiar cam-lock fixings, so only basic tools are required. Both models feature a CD entertainment system and thermometer/hygrometer, and the Sauna IV also includes a wooden pail with ladle.

For beauty, strength and durability from a sustainable source, make sure you choose a Husky sauna, and experience your own luxury ‘spa break’ every single day of the year.



SAUNA II

Features	
Seating capacity	2 persons
